Cy al Meet — Product Best Practices Guide

Driv Adoption Across Your Organization

Versio | Last Updated: December 2025 | Document ID: CM-BPG-001

---

1. Ex tive Sponsorship

Why tters

Organ ns with visible executive sponsorship of Cymbal Meet see 2.4x higher adoption rates within the first 9 s compared to grassroots rollouts. When leadership actively uses Cymbal Meet for town halls, all-ha eetings, and executive briefings, it signals organizational commitment and normalizes the platfo the default communication tool.

Reco nded Actions

- I y an executive sponsor (VP-level or above) who will champion Cymbal Meet internally
- H he executive sponsor host at least one all-hands or town hall on Cymbal Meet within the first 3 ys
- I e Cymbal Meet adoption metrics in quarterly business reviews
- E tive sponsor should send a company-wide communication endorsing Cymbal Meet as the s rd videoconferencing platform
- S ule recurring executive briefings on Cymbal Meet to maintain visible leadership usage

Wher cutive Sponsorship Lapses

Loss o xecutive sponsor — whether due to departure, role change, or shifting priorities — is one of the strong redictors of adoption decline. If the original champion leaves:

- I y a replacement sponsor within 2 weeks
- H he new sponsor reaffirm organizational commitment via internal communication
- E he new sponsor on current adoption metrics and any at-risk departments
- C er escalating to C-level if no replacement sponsor is available, as usage declines accelerate a -6 weeks without visible leadership engagement
- M r weekly login and meeting metrics closely for 60 days after a sponsor transition

2. D rtment Champions Program

Over

Appoi "Cymbal Meet Champions" per department or business unit. Champions serve as local experts, answe stions, and model best practices. This distributed ownership model is especially effective for organi s with 200+ users where centralized IT support cannot provide hands-on assistance at scale.

Chan Selection Criteria

- E iastic about technology and collaboration tools
- Respected within their department (peer influence matters more than seniority)
- Willing
- Has re

Champion

- H[illegible] weekly "Cymbal Meet Tips" sessions (15 minutes, on Cymbal Meet) during the first month
- S[illegible] as first-line support for department colleagues before escalating to IT
- S[illegible] adoption metrics with department leadership monthly
- P[illegible]pate in the Champions Slack/Teams channel for cross-department knowledge sharing
- Report common friction points to the central Cymbal Meet admin team

Scaling th[illegible]

Organiza[illegible]
Under 10[illegible]
100-500 [illegible]
500-2,00[illegible]
2,000+ us[illegible]

3. Traini[illegible]

Tiered Tra[illegible]

5. Overc[redacted]

Legacy To[redacted]

Problem: U[redacted]

Root Cause[redacted]

Interventio[redacted]

1. Set a c[redacted]
2. Migrat[redacted]
3. Identif[redacted]

4. Disable the legacy [redacted] new-meeting creation 30 days before full sunset
5. Provide a side-by-s[redacted]omparison guide showing how legacy features map to Cymbal Meet
6. Monitor login rates [redacted]y — expect a 15-20% surge in the 2 weeks after legacy sunset

Special Consideration - [redacted]uisitions: When organizations acquire companies that use a different videoconferencing tool, [redacted]quired workforce often has deeply ingrained habits. Standard sunset timelines may be too aggressive. Recom[redacted]mended approach:

- Extend the migration tim[redacted]
- Assign dedicated champi[redacted]
- Host joint training sessio[redacted] transfer
- Consider a phased appro[redacted]
- Track the acquired cohor[redacted]

Calendar Integration Issu[redacted]

Problem: Low meeting schedu[redacted]

Root Cause: Calendar integra[redacted] the integration.

Intervention Strategy:

1. Verify calendar connecto[redacted]
2. For Outlook environment[redacted]
3. For Google Calendar: ver[redacted]
4. Create a 2-minute video [redacted]
5. Have champions schedul[redacted] behavior
6. Check calendar event me[redacted] seeing metric improveme[redacted]

Low Ad-Hoc Call Adoptio[redacted]

Problem: Users only join sche[redacted]

Root Cause: Users don't think[redacted] undiscovered or disabled.

Intervention Strategy:

1. Verify that quick-call / ins[redacted]
2. Ensure IT security policie[redacted]
3. Train users on the "Call N[redacted]
4. Champions should model[redacted] to someone's desk
5. Gamification: track and c[redacted]
6. Target: move from <10% [redacted]

6. Gamification and [redacted]

Monthly Challenges

- "Meeting-Free Monday" [redacted] month

- "Cross-Department Connect" — reward teams that hold cross-functional meetings on Cymbal Meet
- "Mobile Warrior" — encourage mobile platform usage for users who only use desktop
- "Calendar Pro" — reward users who schedule 5+ meetings via calendar integration in a week

Recognition Program

- Monthly "Cymbal Meet Power User" award per department
- Quarterly adoption leaderboard by department (displayed in company newsletter)
- Small incentives (gift cards, extra PTO hours) for champion contributions

Engagement Dashboards

Provide department managers with a simple dashboard showing:

- Their team's login rate vs. company average
- Meeting frequency trend (improving, stable, declining)
- Top feature usage (screen sharing, recording, breakout rooms)
- Comparison to peer departments
